

BETA CONTECH OVERVIEW 2013

National Specialized Construction Technologies
Architectural and Industrial Products

Architectural and Industrial Products

www.betacontech.com

BETA CONTECH

Beta Contech is specialized in advanced architectural and industrial products ranging from raised access floorings, architectural expansion joints, architectural impact protection systems, garbage & linen chutes and others.

The company operates within the GCC and MENA countries and has a wide reputation among contractors.

Beta Contech has a team of engineers and specialized personnel offering their expertise to the construction market. The company has successfully completed some major projects in the region. Beta Contech represents well-known European, American and Australian manufacturers in the region such as: Tasman, Tecnogivex, Migua, Pawling, Progress Plast, SFSP and others.

The company offers a variety of products, amongst are: Raised Access Floorings, Expansion Joint Systems, Handrails & Corner Guards, Speed Bumps & Bumper Guards, Entrance Mats, Rubber Tiles, Garbage & Linen Chutes.

Beta Contech does not only sell products. Its role is also to apply the product through proper application methods where required.

PRODUCTS

Raised Access Floorings:

TASMAN.
ACCESS FLOORS

APLILON
Matrix Access Flooring
Data Center Application Guide

tecnogivex

Raised Access Floorings are used for General Offices, Call Centers, Computer Rooms, pumping Stations, Control Rooms etc ...

The core of the panel is either from wood, calcium sulphate, or cementitious composite.

Pedestals are adjustable. Stringered or stringerless understructure. Various types of coverings are available.

www.tecnogivex.it

EXPANSION JOINTS COVERS:

MIGUA

Architectural joints covers for:

- Pedestrial Floors.
- Vehicular Floors.
- Interior and Exterior Walls.
- Ceilings and Roofs.

Components are made from extruded aluminum, synthetic rubber, stainless steel, or brass.

www.migua.com

ARCHITECTURAL & INDUSTRIAL IMPACT PROTECTION SYSTEM

- Handrails : Sculpted, Flat and Cylindrical profiles
 - Wall Guards : Flat and Sculpted
 - Accent Rails
 - Chair Rub Rails
 - Corner Guards : Flush and Surface-Mounted
 - Vinyl Doors and Frame Guards
- Material: Vinyl, aluminum, wood, clear lexan and stainless steel

www.pawling.com

SPEED BUMPS AND BUMPER GUARDS

Speed Bumps and Bumper Guards are used extensively in commercial parking garages and building service areas. Their profiles are designed to maximize wall surface area protection and high impact absorption.
