

Specialized Factory for Steel Products was first established in KSA in 1989 and has been expanding ever since through a variety of products and through its geographical presence.

Production at the factory is observed using modern practices of manufacturing methods in the steel construction industry with a definite compliance to international standards of fabrication. SFSP has manufacturing facilities in KSA, UAE, Egypt, and Lebanon.

SFSP adapts quickly and easily to the market demands and requirements.

Quality at SFSP is uncompromised; the factories have been able to acquire ISO 9001: 2008 in Jeddah in Saudi Arabia, Sigma Factory for Steel Products in Ajman in UAE, in addition to ISO 14001 : 2004 in the 6th of October City in Egypt.

SFSP Produces

SFSP produces a variety of products ranging from cable management systems; cable trays, cable ladders, basket trays, trunkings and support systems, to mechanical cladding fixations, steel lintels and block work accessories, plasterers' beads, expanded metal and block work reinforcement, strut channel systems, pipe clamps & hangers, gypsum profiles as well as garbage and linen chutes. With the introduction of new machines and the enhancement of production methods, the factory was able to achieve its targets. In the midst of this approach, SFSP continues to develop its production methods systematically as well as thoroughly.

Hot-Dip Galvanization

With the introduction of a Hot-Dip Galvanization facility, SFSP has been granted the opportunity of saving time, controlling the quality of its finished products, thus offering better services to the clients.

Cable Trays

Strut Channels

Block Work Accessories

Expanded Metals

Block Work Accessories

5/ Marble & Granite Fixings

Stangle Cladding Fixation includes design, calculation and production of several types of mechanical fixings and accessories used for cladding purposes. Stainless and galvanized steel are among the various materials used in the fabrication.

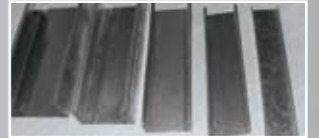

Calculations are provided by our design office in Stuttgart/Germany.

6/ Gypsum Profiles

SFSP provides a complete product range for dry wall and ceiling constructions. Studs, Runners, Furring Channels, Ceiling Channels and Wall Angles are among the range of products produced to service the dry wall installers.

Calculations are provided by our design office in Stuttgart/Germany.

1/ Cable Management Systems

Calculations are provided by our design office in Stuttgart/Germany.

Cable Trays & Accessories

Cable Trays are designed to meet most requirements of cable and electrical wire installations, and comply to local and international standards of fabrications and finishes.

Cable Ladders (Welded & Swaged)

Cable Ladders of different side heights are available upon request, ex: 50mm, 75mm, 100mm and others.

Cable Trunkings (Wall Mounted, Under Floor, Flush)

Cable Trunkings and Accessories are offered in a comprehensive range. Mill galvanized, hot-dip galvanized, and powder coated are the various finishes produced in our factories.

Basket Trays & Accessories

SFSP's **Basket Tray** Systems make connections fast and simple with limited need for tools.

Its design allows for continuous airflow, and prevents heating up of cables. SFSP's Basket Tray comes in a full range of sizes and is made with high-strength welded steel wires.

Cable Management Support Systems

Cable Support Systems are well designed to provide necessary support for cable trays, cable ladders and trunkings. Cable supports are manufactured according to common standards from high quality raw materials.

C-Channel Strut Channels

SFSP's Metal Framing Systems provide an economical solution for electrical, mechanical and industrial supports with a wide variety of applications in the construction industry.

Applications: - Pipe and Conduit Supports - Tunnel Pipe Stanchions - Racks and Shelvings - Wall Framings

2/ Expanded Metals Plasterers' Beads

Expanded Metals help the formation of joints, protection of corners and resistance against cracks, chips and impact damage.

3/ Lintels & Block Work Accessories

Steel Lintels provide a combination of strength and light weight, resulting in efficient load bearing performance and increased productivity on site. They are characterized by their ease of installation in addition to time as well as money saving.

Block Work Accessories and masonry support from SFSP are manufactured according to the specific needs of each project in conformity with international standards from best quality steel.

Calculations are provided by our design office in Stuttgart/Germany.

4/ Pipe Clamps & Hangers

Pipe Clamps and Hangers from SFSP used in the support of pipes and equipments are manufactured according to the highest standards of fabrication.

A diversified choice of:

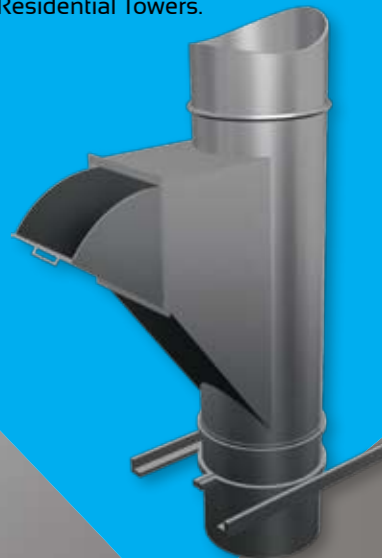

- Pipe Hangers - Pipe Clamps - EMT Straps - Omega Clamps
- Beam Clamps
- J and U-Bolts and Threaded Accessories

7/ Garbage & Linen Chutes

Chutes from SFSP are very convenient, simple and low cost method of controlling and disposing of refuse and linen.

Chutes meet the most stringent requirements of environmental health and safety. Chutes are used as original equipment in new buildings, such as: Hotels, Hospitals, High Rises and Residential Towers.
